

Welcome to 5th & Market Photography - I'm thrilled you're here!

I am so happy you reached out to me to photograph a special time in your life. Whether it be someone referred you, our paths crossed or your Mom knows my Mom and made you contact me because I'm a hometown girl...whatever the reason I am honored to have the opportunity to work with you. I got into photography because I have a terrible memory and I look at pictures to help me remember. I enjoy "people photography" because I have a good ability to make people feel comfortable and love asking questions that catch people off guard. These two things make for those great candid photographs.

Every part of my life so far has enhanced my business. When I moved to St. Thomas, I broadened my scope to include families. I just had my first child, and now I adore photographing children. I have a serious Fixer Upper addiction and try to include creative backdrops in my mini sessions. Once I got married I KNEW I wanted to be a part of everyone's wedding day. So whatever brought you here I hope that you think we're a great fit.

xo,  
Stephanie

“Stephanie is a wonderful photographer and I really enjoyed my boudoir mini session with her. I was so nervous, but she totally put me at ease, and gave me great directions. I laughed half the time, so I’m amazed at how well the pictures turned out. Check her out - she’s great to work with!” -EB
